

Upgrade to

 Microsoft Dynamics 365 Business Central

# Upgrade to 365 Business Central?

## These are the consequences for your authorization system

Are you going to migrate from Dynamics NAV to Dynamics 365 Business Central soon? And are you a user of the 2-Control software? Then the use of the on-premises 2-Controlware modules expires. You can easily switch to our cloud application Authorization Box and our Compliance Apps.

### Change 2-Control licenses

Customers who use the 2-Control authorization software for Dynamics NAV need to switch to the Authorization Box and the Compliance Apps when upgrading to 365 Business Central. The migration of licenses looks like this:

Dynamics NAV	Dynamics 365 BC
Authorization Management + Authorization Monitoring	Authorization Box (SaaS basic)
Authorization Management PRO	Authorization Box (SaaS basic +)
Field & Dataset Security	Field Security App
Mandatory Fields	Field Validation App

The use of the on-premises 2-Controlware modules will be canceled, as will the annual maintenance costs. With the upgrade you switch to the subscription license model. Are you already a user of the licenses for the add-ons of 2-Control B.V. then we offer the apps and Authorization Box for 60% of the subscription value:

Dynamics NAV	D365BC	Basic sub- scription	Dis- count	Subscrip- tion per year	Monthly subscrip- tion
Authorization Management Authorization Monitoring	Authorization Box - basic	€ 1.450,00	40%	€ 870,00	€ 72,50
Authorization Management PRO	Authorization Box - user templates	€ 1.250,00	40%	€ 750,00	€ 62,50
Field & Dataset Security	Field Security App	€ 708,00	40%	€ 424,80	€ 35,40
Mandatory Fields	Field Validation App	€ 708,00	40%	€ 424,80	€ 35,40

### Partner cooperation

If your customers have plans to upgrade from Dynamics NAV to Dynamics 365 Business Central and if there are 2-Control modules in the current Dynamics NAV license, we will support you with the correct instructions to activate the Authorization Box and the Compliance Apps.

When switching to the new licensing model, the current partner agreement will remain in effect with agreed margins.

**For questions about applying the Authorization Box and the Compliance Apps you can always request for more information.**
